- Clear all pending orders in system on time to improve quality experience of customers.
- Label to ready orders for shipping.
- Maintain safety regulations of warehouse.
- Perform all other duties assigned by supervisor.

Web Developer (COOP) – Media Oncloud   **January2023 - April2023**

- Participated in learning of Front-End development by implementing HTML, CSS, and JavaScript.
- Practiced and debugged HTML and CSS code to meet the standard of development team and organisation.
- Created projects such as Online Placements by utilizing C# and .Net.
- Built 100+ responsive pages for company and clients by using HTML, CSS, and JavaScript.
- Collaborated with an excellent team of Front-End professionals and contributed writing clean and efficient code for web pages.

TECHNICAL SKILLS

- In-depth knowledge of HTML, CSS, and JavaScript for creating general structure, styling, and interactive websites.
- Proficient in managing database such as MySql, Oracle, MongoDB to access data through specific queries.

- Understanding of CRUD functionality to manage user data.
- Strong knowledge of back-end technologies including Node.js, Express, Node:EJS.
- Skilled in utilizing coding libraries, scripting languages, and framework such as React.JS and Bootstrap to maintain and develop large projects.
- Experience with RESTful APIs.
- Familiarity with Object Oriented Programming System(OOPS).
- Expertise to create responsive websites to adapt different devices, such as laptop, smart-phones, and tablets.
- Adept at creating innovative and unique designs and stylistic feature.
- Proven problem-solving ability to correct coding errors, and critical thinking to come up with solutions.
- Strong knowledge of version control system Github to eliminate duplicating work.

EDUCATION

Post-Graduation Diploma in Cyber Security   2021-2023

(Cyber-security, information security, Cryptography and data encryption, Ethical hacking testing, Secure Network infrastructure, AI for smarter cyber security, Cloud security)

Loyalist College- Belleville, ON

Masters of Information Technology   2015-2017

(Distributed computing, Network operating system, Advanced web technologies, Distributed database, Linux administrator, Network design and performance analysis, Analysis and design of embedded systems)

Guru Nanak Dev University-India

Bachelors of Computer Application   2012-2015

(Web technologies, Computer graphics, Data Structure, Oracle, System software, Java Programming, C, C++, C#, CSS, HTML, JavaScript, Python)
Guru Nanak Dev University-India

CERTIFICATION

Front-End Development- Meta   October, 2023
(This certification verifies my expertise in front-end development, demonstrating my ability to build and maintain websites. It covers the cycle of web development.)
